

## Corrections and Cancellations

### Session 15 – Phylogenetics and Diversification 2 – Saturday 10:30 AM

- 015005 \*Marshall et al.  
CANCELLATION “Relaxed-molecular-clock dating when fossils are few: Australasian origin, rapid diversification and global expansion of a large cicada tribe”  
015005 \*John R. Cooley, David C. Marshall, Kathy B. R. Hill, Chris Simon  
SUBSTITUTION “More pieces of the periodical cicada puzzle”

### Session 25 – Adaptation 3 – Saturday 1:30 PM

- 025005 \*Singh, Shama et al.  
CANCELLATION “Impact of body color phenotypes on fitness related traits in highland and lowland populations of *Drosophila melanogaster* from the Indian subcontinent”  
025005 \*Selby, Jessica and Willis, John H.  
SUBSTITUTION “The genetic basis of serpentine tolerance in *Mimulus guttatus*”

### Session 30 – Molecular Evolution 3 – Saturday 1:30 PM

- 030001 \*Pintar, Jura et al.  
CANCELLATION “Variational homology and modularity in RNA secondary structures”

### Session 33 – Conservation Biology 1 – Saturday 1:30 PM

- 033003 \*Russello, Michael et al.  
CANCELLATION “Cryptic diversity and conservation units in the Bahama parrot”

### Session 34 – Animal Mating Systems 1 – Saturday 1:30 PM

- 034004 \*Adreani, Mia  
CANCELLATION “Mechanisms leading to the use of alternative mating tactics in a hermaphroditic seabass”

### Session 38 – Phylogenetic Theory 4 – Saturday 3:30 PM

- 038006 \*Baum, David  
ADDITION (163) “Developmental causality as a criterion for character individuation and homology”

### Session 78 – Experimental Evolution 1 – Sunday 1:30 PM

- 078005 \*Cooper, Vaughn and Wrocklage, Sarah  
CANCELLATION “Distributions of pleiotropic effects of four sets of beneficial mutations”

### Session 89 – Speciation 8 – Sunday 3:30 PM

- 089004 \*Rose, Colin and Edmands, Suzanne  
CANCELLATION “Use of a mapping approach to discover hybrid inviability loci in the tidepool copepod *Tigriopus californicus*”

### Session P1 – Poster Session A – Sunday 7:00 – 9:00 PM ADDITIONS

- P1192 Dominique Barbeau “Insights into the Evolution of Heterolobosea from Multigene Molecular Analyses”  
P1193 Kenneth Hoehn “Fertility and Flirtation in a *Drosophila* Meiotic Drive System”  
P1194 Jeremy Hsu “Examining the Genetic Basis of Migratory Behavior in Monarch Butterflies”  
P1195 Nikola Ivica “Estimating the Rate of RNA Hydrolysis Under Alkaline Conditions”  
P1196 Evan Koch “Trends in Nucleotide Diversity of the Saint Louis Encephalitis Virus”  
P1197 Sonia Singhal “Relationship between Robustness and Host Shift in an RNA Virus”  
P1198 Timothy Thurman “Co-occurrence and variable infection rates of Wolbachia supergroups and subgroups in *Neochlamisus* leaf beetle populations: implications for infection dynamics and beetle speciation”  
P1199 Sandeep Venkataram “Orthologous cis-regulatory sequences show no significant sequence similarity: implications for the binding site turnover model”  
P1200 Lydia Meador “Within- and between-generation effects of drought stress for leaf hair production and flowering time in *Arabidopsis thaliana*”

### Session 101 – Genomics 9 – Monday 8:30 AM

- 101005 \*Minin, Vladimir N. et al.  
CANCELLATION “A Bayesian approach to testing the independent origin hypothesis”

**Session 120 – Development and Evolution 2 – Monday 10:30 AM**

120002 \*Dennis, S.R. and Beckerman, A.P.

CANCELTION “Predator induced changes in gene expression in developmental hormone pathways”

**Session 130 – Evolutionary Theory 2 – Monday 1:30 AM**

130004 \*Leviyang, Sivan

CANCELTION “The Effect of Immune System Attack on Intrahost HIV Population Genetics”

**Session 135 – Speciation 10 – Monday 3:30 AM**

135006 \*Lamont, Myles and Arndt, Allan

CANCELTION “Defying Allopatry: a multilocus comparison of New and Old World populations of *Dendrocygna viduata*”

**Session P2 – Poster Session B – Monday 7:00 – 9:00 PM ADDITIONS**

- P2191 Richard Coleman “Genetic and Morphological Variation in the Sea Star *Leptasterias* spp. in Central California”
- P2192 Johanna Huntley “Diversification of *Alethe poliophrys*, an endemic bird in the Albertine Rift”
- P2193 Brittney Kajdacs “Phylogeny of Galapagos Tortoises from a Nuclear DNA Marker: Resolving a Rapid Radiation”
- P2194 Kevin Keller “Phylogeographic Study of *Ctenosaura similis*”
- P2195 Courtney Lee “Microsatellites reveal stock structure in spotted seatrout, *Cynoscion nebulosus*, in the western Gulf of Mexico”
- P2196 Christopher Petty “Evolution of inter-sexual selection in the isogamous ciliate *Tetrahymena thermophila*”
- P2197 Elizabeth Quimba “Molecular Phylogeography of the Western Hognose Snake (*Heterodon nasicus*)”
- P2198 Milinda Thompson “Evidence for Post-Pleistocene Range Expansion in the Western Fence Lizard (*Sceloporus occidentalis*) in Central and Eastern Nevada”
- P2199 Katharine Walter “Paleo-distribution Modeling of North American Songbirds”

**Session 148 – Ecology and Evolution of Disease 3 – Tuesday 8:30 AM**

148005 \*Archetti, Marco

CANCELTION “Evolution of sex and recombination: Maynard Smith's complementation theory rescued by intragenomic conflict”

**Session 152 – Quantitative Genetics 1 – Tuesday 8:30 AM**

148006 \*Richardson, David S.

CANCELTION “MHC-dependent survival in a wild population: evidence for hidden genetic benefits gained through extra-pair fertilisations”

**Session 156 – Evolution and Sex – Tuesday 8:30 AM**

163001 \*Archetti, Marco

CANCELTION “Evolution of sex and recombination: Maynard Smith's complementation theory rescued by intragenomic conflict”

**Session 159 – Hybridization – Tuesday 8:30 AM**

ORDER CHANGE 159001 \*Hao, Weilong and Palmer, Jeffrey  
159005 \*Marsh, David M. et al.

**Session 163 – Development and Evolution 5 – Tuesday 10:30 AM**

163001 \*Baum, David

MOVE TO 38 “Developmental causality as a criterion for character individuation and homology”

**Session 169 – Adaptation 15 – Tuesday 3:30 AM**

025005 \*Selby, Jessica and Willis, John H.

MOVE TO 25 “The genetic basis of serpentine tolerance in *Mimulus guttatus*”
